Gersep First Applicants:4 -

VISION

The vision of GERSEP is to create enabling platforms for young graduates to achieve:

- ✓ Overall research proficiency with specialization in identified areas of interest.
- ✓ Capacity for independent innovative applications of learnt skills.
- ✓ Capacity to discern and apply learnt skills for community service.
- ✓ Pass recommended online courses (especially in identified areas of specialization) that are offered by recognized institutions.
- ✓ Publish 15 or more works in renowned online based Journals.
- ✓ Attend academic conferences in the capacity of a Student/Intern.
- ✓ Design and test-run a private enterprise model in the chosen area of specialization, and
- ✓ Identify specific fields for possible application submission

MISION

The Mission of GERSEP is to help young graduates develop capacities for problem identification, problem analysis and solution generation, as well as innovative thinking, research/grant fund mining and team work ethics.

BRIEF HISTORY OF GERSEP

The Graduate Employment and Research Skill Enhancement Project (GERSEP) is the brain child of the Innovative Science Research Foundation (ISREF). It was an idea conceived in the year 2013 with the intention of recruiting Graduate Interns and equipping them with intellectual skills that would help them face the challenges of life after graduating from their various Universities. ISREF is a duly registered Non-Profit/Non-Governmental Organization, with Anthonio Research Publications (ARP) and the International Society of Science Researchers (ISSCIR) as affiliates. ARP is the publisher of the International Journal of Basic, Applied and Innovative Research (IJBAIR), International Journal of Community Research (IJCR) and the International Journal of Herbs and Pharmacological Research (IJHPR), while ISSCIR is a duly registered Academic Society for Innovative Scientists.

“A people without the knowledge of their past history, origin and culture is like a tree without roots.”- **Marcus Garvey**

MEET THE DIRECTOR

Professor Anthony Nwaopara is a renowned leader both in academia and in the society.

He bagged his Bachelor of Science, Master of Science and Doctor of Philosophy degrees in Anatomy. No wonder, he considers the field of Anatomy as distinct area in Health Sciences in which he holds the rank of a Professor.

Being a very intelligent, efficient, hardworking and extremely good leader, Professor Anthony Nwaopara has held various leadership positions which includes but not limited to:

- ✓ Former Head, Department of Anatomy, Ambrose Alli University, Ekpoma
- ✓ Former Head, Department of Anatomy, University of Medical Sciences, Ondo City, Ondo State
- ✓ Pioneer Dean, Postgraduate School, University of Medical Sciences, Ondo City, Ondo State
- ✓ Former University Orator, University of Medical Sciences, Ondo City, Ondo State
- ✓ Dean, Faculty of Basic Medical Sciences, Edo University, Iyamho, Edo State
- ✓ Director, Innovative Science Research Foundation (ISREF)

"Lack of relevant skills is the cause of unemployment" – Anthony Nwaopara

He is also a current fellow of the International Society of Science Researchers (ISSCIR).

His passion to make the society a better place by investing in the youths who are the pillars of a nation led to the establishment of the GERSEP program.

GERSEP FIRST APPLICANTS

THE INTERNATIONAL SOCIETY OF SCIENCE RESEARCHERS/ INNOVATIVE SCIENCE RESEARCH FOUNDATION INTERNSHIP PROGRAM (ISSCIR/ISREF)

The GERSEP program is run by the above named institutions. Following are the dated details of the First recruitment Process.

30th March 2020

Call for Application

The ISSCIR/ISREF graduate internship was declared open by the Internship coordinator, Mr. Richard O. Daodu on behalf of the institutes' Director, Professor Anthony O. Nwaopara. In a written message, the internship coordinator advised interested applicants to apply online via a link provided as soon as possible. He further stated that the internship is strictly for BSC anatomy graduates and those without the qualification need not apply.

Areas which were declared available were Surface Anatomy and Aesthetics, Embryology and Reproductive techniques, Sports Anatomy, Neuroanatomy and Virtual Science, Death Care Services, Forensic Science, Trichology and Teratology.

The internship's duration was said to be either for 6 months or for 12 months. The aim of the internship was said to embed Anatomy graduates with skills necessary for sustainable career in Anatomy. The Coordinator further added that the selection process will be strict as candidate's perceived passion for the field of Anatomy and possession of 21st century world knowledge would be a great advantage. Candidates were also advised to beware of fraudsters as the application process is completely free of charge.

He ended the message by giving the application deadline to be 30th of April, 2020.

21st April 2020.

Release of Syllabus and Practice questions

The Director, ISSCIR&ISREF, Professor Anthony O. Nwaopara releases the syllabus and practice questions for the various areas of training of the Internship. In his written message, he advised candidates to go through the syllabus and 'play' with the practice questions. He said, "These will equip you with basic knowledge in the appropriate areas in preparation for the internship. You will also be tested on it as part of the selection process". The message ended as he wished the candidates best of luck.

30th April 2020.

Release of the internship objectives

The Director, ISSCIR&ISREF, Professor Anthony O. Nwaopara releases the expected outcomes of the internship period. As stated in his written message, such expectation includes:

1. Overall research proficiency with specialization in identified area of interest.
2. Develop capacity for independent innovative applications of learnt skills.
3. Develop capacity to discern and apply learnt skills for community service.
4. Pass recommended online courses (especially in identified areas of specialization) that are offered by recognized institutions.

GERSEP FIRST APPLICANTS

5. Publish 15 or more works in renowned online based Journals.
6. Attend academic conferences in the capacity of a student.
7. Design and test-run a private enterprise model in your chosen area of specialization.
8. Identify specific fields for possible application submission

While motivating the candidates he said, "This is designed to make you: Unstoppable, Sought after for job, Independent, Future ready, financially stable, Employer of labor and an Entrepreneur. Dream big, Aim big, reach big, Achieve big! Like we say, BE THE FIRST, BE THE BEST! Life paths come by choices we make, make yours today!"

Closure of application and commencement of application processing

The application was closed at exactly 10pm on the 30th April 2020 and the management began the application processing. At the end of applications, a total of 80 applications were received. Forensic Science received 20 applications, Embryology, 27, Teratology, 1, Histopathology, 1, Sports Anatomy, 4, Aesthetics, 8, Neuroanatomy & Virtual Reality, 3, Death Care, 1, while 14 applications were unstated.

18th May 2020.

Assignment of Candidate Codes and Release of 1st assessment result

The management assigned to each candidate a specific customized code to serve as means of identification in the further processes of recruitment. In a written statement, the internship coordinator advised the candidates to check their emails for their codes.

In another statement, the Director, Prof Anthony O. Nwaopara released the 1st assessment result. He stated that was done for the reasons of making the candidates better and for transparency. The result was an evaluation of the applications based on the quality of the CVs, motivation letters and some other qualities. He implored the candidates to prepare for other parts of the selection process.
